

Job Opportunity - Landscape Designer

Landmark Planning & Design Inc. is a multidisciplinary land use planning firm based in Winnipeg, Manitoba. Our work spans land use planning, stakeholder engagement, development approvals, landscape and urban design, and subdivision design. We are seeking a **Landscape Designer** to join our growing team. In this role, you'll collaborate with planners and designers on a diverse range of projects, including landscape design, urban design, subdivision planning, and land development.

The Role

This is an **entry-level position for someone curious, creative, and excited to learn**. You'll build hands-on experience in landscape design, graphic communication, and project coordination while working in a collaborative, interdisciplinary environment. We're looking for someone who is eager to contribute, ask questions, bring ideas to the table, and grow with our team. The role will evolve with your skills and interests, with opportunities to take on increasing responsibility and explore different aspects of landscape architecture, urban design, and planning. The position may include:

- Landscape design, site planning, and subdivision design, from site analysis and conceptual development through to detailed design and implementation
- CAD drafting, drawing production, map preparation, and editing
- Preparation of diagrams, renderings, graphics, presentations, and other visual communication materials
- Research, and analysis of landscape, urban design, and land use planning projects
- Support for planning applications, development approvals, public engagement, reports, proposals, and related project deliverables
- Coordination with project managers, senior designers, consultants, contractors, municipalities, and other project stakeholders

Qualifications and Experience

- Degree in Landscape Architecture, Landscape Design, Environmental Design, or a related discipline
- 1-3 years of professional experience, including relevant internship or co-op experience
- Strong interest in landscape design, urban design, site planning, and community development
- Proficiency in AutoCAD, Adobe Creative Suite, particularly InDesign, Illustrator, and Photoshop, considered an asset
- Experience with Rhino, SketchUp, GIS, or other visualization and mapping software considered an asset
- Strong graphic communication and presentation skills
- Ability to work independently and as part of an interdisciplinary team

Interested in Joining Us?

If this opportunity sounds like a good fit, we'd love to hear from you. Please send us a cover letter, resume, and a sample of your work to info@landmarkplanning.ca by Friday, September 4 at 4:30 PM CST.
